SLIDING SCALE BIG ISSUE IN TARIFF BILL

Freedom of Action for Conferees Does Not Mean More Than Compromise

GIVES ALIBI TO FOES

Some Look for Excuse to Kill Tariff on Constitutional Grounds

BY DAVID LAWRENCE Copyright, 1930 By Post Pub. Co.

Washington -(CPA)- Ordinarily the freedom of action given the conference committee by the vote of the senate would mean a tendency to yield to the house but in the case of the present tariff bill it signifies a willingness to compromise and the prospect of a deadlock unless the senate's views are really met.

The two principal items in controversy relate to the flexible provisions of the present law and the export debenture plan. On the latter point the senate would probably agree if the export debenture plan were left optional with instead of mandatory upon the Federal Farm

As for the flexible provisions, this is the crux of the whole tariff bill and if the house believes the senate is not in earnest about it, the comments of senators during the debate may be considered a warning.

The flexible provisions may be common alibi for more than one group in the senate which dislikes the present bill. There are those for example who would not hesitate a moment to argue that the advantages to be gained in the various schedules are as nothing compared with gress to fix tariff duties.

FEAR EFFECTS OF BILL Inwardly some of these same sen ators really regard the schedules over which the senate worked so long as injurious to the interests of their respective states. An excuse to vote against the tariff on broad consti tutional grounds would be seized upon by a number of senators especially since there is a determined opposition now in some quarters in the east to do everything possible to kill the tariff bill. Senators who might place themselves in political iconarady by trying to argue the merits of particular rates are not likely to be as much embarrassed if they make their whole fight on the flexible provisions.

Members of the house are inclined to stand by the president's original proposal to the effect that the rate making power should be left to a reorganized tariff commission which will be checked by the chief executive, the senate argues that congress should retain its rights to change the tariff at will but should regard the tariff commission as a fact finding body.

Tells Senator Watson He Wants Vote on Treaty Before Adjournment

Washington-(A)- President Hoover gave the word today that he wanted the London naval treaty disjournment. At a conference with Senator

Watson, the Republican leader who has warned that the pact might go over until next session, the president made it clear that he wanted prompt consideration.

Watson informed the president that if the treaty were reported to the senate from committee before the tariff bill is enacted, it would be act ed upon at this time.

He emphasized, however, that the membership was worn out from 18 months of almost continuous session and that unless the pact were brought up when other business was concluded, it would be difficult to keep the senate in session. The treaty proponents moved to

day to speed its consideration. Chairman Borah of the foreign re ations committee, said he would be ready to conclude the hearings to-DOMINIONS BALKED

Former Husband Not Believed Connected With Dirigible Nearing Equator—

Green Bay -(A) -- Authorities in estigating the double slaying of Lucille Birdsall, 24, and John Van Veghel, 36, found hacked to death in VanVeghel's roadhouse here, today hoped to obtain clews of the slayer or slayers by questiong Frank Kupczak, Miss Birdsall's former hus-

Kupczak voluntarily agreed to come to Green Bay after being questioned in Milwaukee last night by Sheriff William Nicolai of Brown-co. Nicolai said he believed Kupczak had no connection with the killings but that he might possess information hat would assist investigators.

A coroner's jury was impancled vesterday but no date for the inquest was set.

The mutilated bodies of Miss Birdsall and VanVeghel were found on a bed in the Golden Pheasant roadhouse yesterday. A bloodstained ax and knife were found in the basement of the roadhouse. They were turned over to fingerprint experts for examination.

Miss Birdsall and Kupezak were divorced in Kenosha in 1926. The former husband said they recently had trouble over custody of their only child, Betty Ann, Last week, he said, he filed a complaint asking the state board of control to investigate her alleged visits to readhouses with

The sheriff said Kupczak presented witnesses to testify as to his whereabouts over the weekend and that the former husband was not a suspect in the case. Sheriff Nicolai said he believed the slavings grudge affair and that following the grudge affair and that following the BROTHER, SISTER HEIRS movements of the principals and their acquaintainces during the past week would unearth motives for the

Kupczak established his alibi by introducing a Milwaukee used car dealer with whom he negotiated the purchase of an old car Saturday and relatives, who aided him in removing the car from the lot, and worked with him on it Sunday. .

He revealed his last letter from his wife asking him to provide a spring coat for their daughter in with the possible exception of the that "it was a very successful piece time for Easter "if you can afford." The letter inquired into the health of his mother "and the rest" and sent them her best regards. It was signed "as ever, Lucille."

New York-A holding company Tide Water Associated Oil controls through ownership of over 97 per cent of the common stock both Tide Water Oil and Associated Oil. Each of these two subsidiaries is a complete unit in the industry, Tide Water Oil operating in the midcontinent and castern fields and Associated Oil on the Pacific Coast.

The holding company has no funded debt of its own but there is some \$16,500,000 bonds of subsidiaries out standing including \$14,214,000 Associated Oil 6 per cent notes due September 1, 1935. Interest charges on this issue are covered by a very wide margin and the note is a high grade investment selling at or above the price at which it is callable. It has no speculative attraction and is interesting only to those who want a short term security.

Tide Water Oil, the common stock of which is practically all owned by Tide Water Associated, has a 5 per cent preferred stock of \$100 par outstanding to the amount of \$19,944. 600. This stock sells to yield around 5.3 per cent and the dividend thereon seems well protected. THERE IS ONLY one real reason for smoking and that's pleasure. A pretty good reason after all. The cigarette you select in the long run will be the one that can contribute most to your enjoyment.

Camels are made with that idea in mind—the idea that genuine smoke pleasure is what you want in a cigarette.

When you try them you will find a refreshing difference -a mild, mellow richness of choice tobaccos-a blended harmony of fragrance, silky smooth—that makes smoking a delight.

The fact that more millions have chosen Camel than any other cigarette is a tribute to an honest product, marketed for an honest purpose.

POLITICAL PROHIBITION

Prohibition has been one of the best playthings the politicians have had to gambol with since they were the cover off the tariff ball. Anything is meat for a politician that he can holler about and seem to make an issue of. He must have something of the kind in order to attract attention to himself and get votes. Most of the drys in congress have been drys because they believed their constituents were dry, and the same is true of the wets. Being once convinced that they represent a majority sentiment in their state or district, the politicians at Washington have been willing to go to any extremes on whichever side of the question they happen to stand. It was a bone to fight over, something to spout about. When they make the welkin ring with their accusations and tearful pleas these orators are thinking little of principle but for the most part of votes. They have no real convictions on the controversy, either for or against prohibition. They can work themselves up into an emotional state where they believe they have, but they are merely kidding themselves.

The Literary Digest poll is causing these politicians endless worry, particularly the drys. Those who have been posing as ardent champions of prohibition on the supposition that the people back home wanted it are disconcerted by the ballots which seem to show a change of sentiment and the desire for modification or repeal of the eighteenth amendment. Likewise some of the wets are in a quandary to know whether the modificationists are to be classed in their group or with the drys. They cannot be quite sure to what extent the modificationists wish to bring back the liquor traffic or whether they would stand for the extreme measure of repeal. The exact classification of a modificationist is a debatable subject, although in a general way we would put him down as a wet.

Undoubtedly the Literary Digest poll will cause a weakening of many stout hearts in congress. While it seems logical to open the way to such leadership as Dwight Morrow has undertaken it is going to be the subject of additional controversy. The politicians will hold their ground as long as possible, but they will be ready to jump the fence any moment that safety dictates. Most of the debates we have heard in congress and out of congress on prohibition are rubbish. Hysterical propaganda like that conducted by the Chicago Tribune is as nauseating and inane as the extremes practiced by the Anti-Saloon League. Eventually we shall strike a balance, but the politicians and radicals of both sides will make little contribution to it. It will be men of the type of Mr. Morrow who point the way to common sense and good judgment, and the American people will do the rest.

ENGLAND'S NEW POET

LAUREATE The selection of John Masefield as England's new poet laureate means that the high traditions of this honored post are to be maintained very well indeed. Few literary critics will deny Masefield a place in the forefront of modern poets; most of them, probably, will agree that he outshines his prede-

cessor, Dr. Robert Bridges. Americans will feel an unusual interest in Mascheld's elevation because of his extensive experiences in this country. He traveled clear across the continent as a migratory worker once, and for a time was porter in a New York saloon; and these unconventional wayfarings have helped greatly to give his poetry its wide appeal and depth.

His wanderings hardly seem appropriate for a poet laureate, who by tradition is supposed to write historic lavs about the doings of royalty; but the pureate doesn't have to do that any the doesn't feel like it, so no

harm is done. At any rate, there is no question that Masefield is an honor to the post he holds.

THE TARIFF MESS

The senate by a close vote has referred the tariff bill back to conference with instructions to its committee to make such concessions as it may feel are necessary to bring about an agreement with the house. In other words, the senate committee is freed from the obligation heretofore placed upon it to demand inclusion of both the debenture and flexible tariff clauses in the final measure. Undoubtedly the senate will surrender to the house, at least on the debenture. This in turn will provoke fiery opposition in the senate to approval of the conference report.

The strength of the partisans of the senate bill is indicated, though not accurately measured, by the fact that one motion to revise the instructions to the conference committee resulted in a tie. There are threats of a filibuster in case the debenture is left out, and undoubtedly it may be expected. On the other hand, there will be some of its opponents who will be sorry the debenture provision is not left in the bill, as it would afford them good ground to vote against it and withstand being whipped into line by party pressure. It is equally true that inclusion of the debenture would compel President Hoover to veto the bill.

Perhaps both of these facts count in some degree for the popularity of this scheme in the upper branch of congress. The tariff bill has been so roundly and soundly denounced throughout the country that the administration must be getting apprehensive about its political effects. Retention of the flexible provision is essential, in all likelihood, to presidential approval. Mr. Hoover knows the bill is bad and ought not to be enacted. There can be no question but what he is in substantial accord with the American economists who have condemned the measure and asked him to veto it. He would be able to justify his signature only on the condition that the flexible provision gives him authority to change schedules by executive decree. Tariff making of this nature, however, must be viewed with misgiving because in the first place it virtually takes the power away from congress, and in the second place does not necessarily contribute to scientific adjustment of schedules. The whole tariff situation is a mess. However it is disposed of, it is going to be excellent ammunition for the Democrats in the fall campaign, and it certainly has not strengthened the Hoover administra-

CULTIVATING HEALTH

The American Red Cross, meeting in Washington, plans more extensive health activities than ever before. The director of the school of hygiene of Yale university tells the members they have never had a genuine national health program, and urges "a more active and enlightened conscience in regard to health."

So we are to be made not only health-conscious but health-conscientious. It sounds a little queer at first, but we may get used to it. And there's nothing really illogical about making health a matter of conscience, as if it were a moral thing. Conscience concerns duty. People cannot do their duty when they are not well. Poor health makes people futile, fussy, irritable, ill-natured and wrong-minded. It blurs their ideals and keeps them from living up to their own moral code. It dims faith, hope and charity. Wherefore one of the fundamental duties of man, including woman, is to cultivate health carnestly and persistently.

HITCHING MEN TO JOBS

The Senate has acted wisely in passing Senator Wagner's bill to set up a federal chain of employment offices.

Very often it happens that jobs will be scarce in one part of the country and fairly plentiful in another. Heretofore there has been no nation-wide system under which a jobless man could find out where prospects were the best. The Wagner bill seeks to provide the machinery by which men can be attached to jobs with the least possible trouble and the greatest possible

The bill has to pass the House, but there seems little reason to doubt that it will do so. The \$4,000,000 a year which it would appropriate is a small price to pay for a device that would operate to alleviate unemployment, and restore prosperity.

Today's Anniversary

THE AMERICAN RED CROSS

On May 21, 1881, the American Red Cross was ormed under the leadership of Clara Barton who neted as its first president.

The American Red Cross Society, like these of other nations, was organized largely through the activities of Jean Henri Dunant, a Swiss. An eyewitness of the battle of Solferino, Dunant published a book in which he vividly described the horrors of the battlefield caused by the inability of the regular surgical corps to care properly for the wounded,

The book was widely read and the resulting igitation led to an international conference at Geneva in 1863 when delegates from 16 countries signed what is known as the Geneva Convention which provided for the neutrality of those officially engaged in relieving the wounded.

In 1905 the American Red Cross was chartered by an act of Congress. There are now more than 3,000 local chapters, with national headquarters it Washington, D. C. The work of the organization is not confined to war time, but includes the relief of suffering caused by great calamities such as epidemics, storms, earthquakes and abdomen.

Thanks to the long years of educational activity of physical culture the members of the 1928 feam are merchants and dignified silence on the part of medical and health auth orities, the great American public has come to believe that a bulging chest is an index of physical development, that a retracted belly or at least a flat belly is a feature of perfect development, and that one should breathe largely with the upper chest and have as great a chest expansion as possible. All of these notions are seriously wrong. It is a little late now for physiology to say so, but not too late, I hope, to save many misinformed people from the true. consequences of bad breathing habits. He who reads may breathe, and in America it seems he breathes about as he reads. That's the great trouble with America, today; people live on the wrong kind of reading. There are millions in the production and distribution of that kind of reading. Wholesale reading, on the other hand, is profitable mainly to the consumer, so it doesn't get much of a break in Yankeeland.

Here are a few essentials of normal breathing. Fix them in your mind, for they are good physiology and good hygiene. (1) Breathe with your belly and never mind your chest. (2) Deep breathing in itself is of no value; only such as occurautomatically with exercise is worth while, (3) One breathes best when asleep or under anesthesia; this suggests the unwisdom of amateur tinkering with one's breathing. . .

WIND ADDS: TO FIRE DANGER IN OIL FIELD

Oklahoma Cily — (A) — Fearful lest wind increase the fire menace, oil field workers | redoubled efforts today to curb the spree of the Sigmon gusher in the Oklahoma City field —wild since las # Friday.

Apparently, increasing its gas glow, estimated at around eighty million cubic i get and maintaining its crude oil production of 15,000 barrels daily, the Prairie-Slick-Phillips well blew oily mists far into the north part of the pool before a south wind Tuesday. Its roaring song was accompanied if for a time by that of the Alice Bodi ne of Indian Territory Illuminating Oil company, an "old" well two mides to the north.

Workmen, how ever, got the upper hand of the 1 Bodine late yesterday, Today with i he aid of a special connection and guide, weary laborers hoped to fin lish placing a die nipple on the casin g top at the Sigmon, which is bidding for a share of the fame of "Wild . Mary" Sudik, untamed for 11 days.

The two rampant gushers together with the south wind, caused increased road blockade - and hasty exit of resident workm en while guard outposts were extend, ed.

Lawrence Hopes To Repeat At State Track Meet

VIKES ENTERING BEST BALANCED **TEAM IN YEARS**

Dopesters Figure Carroll Has Best Chance to Win Collegiate Crown

By GORDON R. McINTYRE AWRENCE college track and pions Saturday will defend its laurels the two bodies is worth. at the annual conference meet to of Carroll College.

But this year advance dope does not favor the Vikings as heavily as in other seasons and with Ripon and Carroll beasting strong squads, chances are the Vikings will lose their title. At least that is the dope.

Coach A. C. Denney of the Vik; ings, however, is a crafty mentor and he has been working his figures and watches and runners overtime in the last few days and estimates his proteges have a chance to cop - and not an outside chance either. So it is with that thought in mind he has been drilling the team to the limit and using various and sundry types of psychology to key up the squad for Saturday's effort.

Lawrence will place in competition this season its most balanced squad in many years. The Vikings are weak in only one or two events, the hurdles and the half mile, and as both Ripon and Beloit have ranking hurdlers and Ripon and Carroll good half milers, Denney expects the points will be split up where they will not hurt too much.

Beloit college squad without a vicspring is the underdog in Saturday's ed to finish the meet in fourth place and Sweden. with Ripon third and Lawrence or Carroll one and two

in Milwaukee Friday night. Brussat, Pope, Arthur, and Fischl, have been nominated by Denney as candidates for the 100 yards dash with the first two as most likely antries. Their best time has been around 10.3, the same as Carroll's best. Six men are possibilities in the 220 with Brussat, Pope, and Fischl the most likely choices in the final analysis. Robert Rasmussen and Paul Fischl will be entered in the 440, Rasmussen's time being as good as any set by Big Four runners this season. Lawrence's entries in the half mile. Ansorge, is not favored to place high. Wolfe will center his efforts on the mile and two mile where the co-captain, can compete with Wolfe in the distance races.

Aldrich, Calhoun, Cannon and Schier have been nominated to try time trials in the hurdles. Aldrich is the best in the lot and may pick up a couple points 'n the events.

Calhoun, Cannon and Schier, are nominees for the pole vault, the former two usually running nip and tuck and holding the 11 foot mark with two Ripon men. Aldrich and Calhoun also are entered in the high

CRIME CHAMPION TITLE IS TURNED **OVER TO NEW YORK**

Chicago Transfers Honors as New Gang Wars Break Out in East

BY OWEN L. SCOTT (Copyright, 1930, by Cons. Press) Chicago -(CPA)- After years of uneasy squirming under the jibes directed at her reputation, Chicago now is getting ready to transfer to New York, without regret, the un becoming mantle of world's crime

Judging by reports which reach the Mississippi valley from the eastern metropolis, gang wais have flared up anew, municipal scandals are being uncovered and racketeer ing flourishes on an unprecedented scale. These revelations come at a time when Chicago to all outward appearances is making plogies in her determined effort to rebuild a

tarnished reputation Grover Whalen, retiring police commissioner in New York is given as authority for the claim that his city harbors more than 50,000 tacketeers who have an annual income of over \$300,000,000, while prohibi tion graft is set at over \$100 000 000 He is reputed to have said that nearly 1,000 hangouts are known in the New York area.

Chicago pretends to be shocked by the thought of a condition pic tured as blackly as that by officials Her own racketeers tribute is set around \$100 000 00 while graft from prohibition, vice and garibling combined is estimated to reach not more than \$100,000,000

The fact that extortion is a major industry in the country's principal city would not interest Chicago so intensely, were it not for the fact that muider apparently is an accompaniment in the east as well as

In addition to gang wais the evi dence of political corruption is causing snickers locally, particularly in of Chicago officials in the past Sale of permits and of political influence is alleged. Coming after some contract scandals and a scandal grow ing from abuse of police magistrate privileges, the scene is enought to inspire indulgent smiles among Chi

Buy a Six of Course but be Sure it's a Super-Six

The Essex Challenger is a Super-Six. By its patented principle the ability of the 6-cylinder type is freed to the limit. It is responsible for a performance and smoothness that belong exclusively to the Essex Challenger. That is why we say—and more buyers every day are saying-"not just a Six, but a Super-Six."

The New ESSEX Challenger Gives Sparkling Performance

Essex owes its performance to its completely balanced motor and power line. It has fourring aluminum pistons, balanced with crankshaft and flywheel; driveshaft balanced with clutch and universals, and the Lanchester Balancer for smooth pickup. More power results, with smoother acceleration, higher speed and low fuel consumption.

New Oil System Adds Long Life More and cooler oil in all bearings means a cool motor with less wear on moving parts. Roller valve tappets and adjustable front end timing chain aid quiet operation.

Pienty of leg and head room are built into Essex bodies. Front and rear scats are adjustable and bodies are silenced and insulated, with larger windows.

Interior appointments carry the same motif as fenders and lamps. Upholstery is of finest quality. There is a graceful three-spoke steering wheel, and the instrument panel holds starter, electric fuel and oil level gauge as well as motometer.

Roadability and Safety

Longer wheelbase, larger tires and patented spring suspension make Essex the most roadable of cars. High speed with safety is possible because of the positive action of four-wheel brakes.

This is the finest, best performing Essex value ever built. It holds scores of records established during continent-wide Challenger Week. See it and drive it. You will need no other proof that this is not just a six, but a Super-Six.

There's a definite Early American Influence here

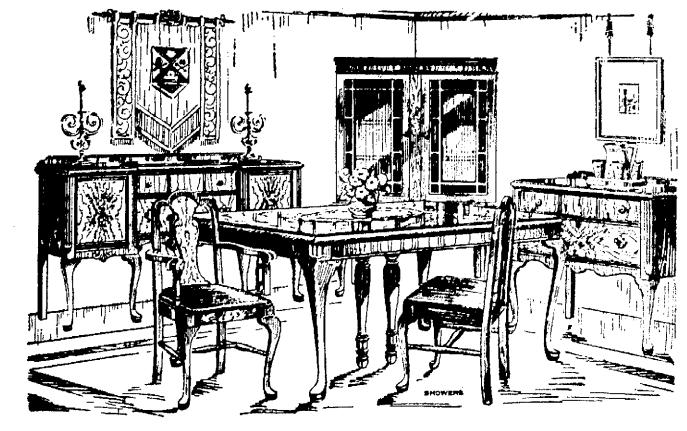

Early American bedrooms are flowering with renewed vigor during the widespread revival of 18th Century furniture style in smart homes today. Murder at CHARLES G

SYNOPSIS: The fear and hate; that has built itself around the despised Dan Parados has its climax in his own mysterious murder. He is shot in the library of his home on his island estate off the California coast. Anatole Flique, a Parisian detective, does not notify authorities until he gets clues of his own from dinner guests in a "game of murder." The story is told by Allen Hunt, who came to review Parados' art collection. Everyone in the house fair," Samuels admitted. is under suspicion. SECOND MONTHLY STOCK EXCHANGE **BULLETIN ISSUED**

BY CHARLES F. SPEARE Copyright, 1930, by Cons. Press

Wall Street, New York-The secолd of the monthly bulletins issued. by the New York stock exchange, whose object "is to make more readily and conveniently available to all a thing. We demand to be exoneratively interested parties, economic statistics which relate to security markets," was published Tuesday. It contains a mass of information valuable to those who follow movements in stocks and in bonds and are interested in the month to month changes in particular groups of issues.

There are about 35 major classifistocks listed in the stock exchange bulletin. Under the railroad industry division are the stocks of railroads, railroad holdcommunications companies, which would embrace American Telephone & Telegraph, Internaand Radio: also tractions, omnuibus, express and water and heating utility companies.

With these sharp divisions between different types of stocks it is possible, from month to month, by comparing the market values, to obtain a very definite idea of where the weak or the strong spots in the investment or speculative situation exists. This is further brought out in the series of 24 charts showing the trend of market values in these groups in 1929 and up to the present date. In this respect the compilations of the New York stock exchange bulletin are more comprehensive and instructive than those available in the different popular financial services.

SERVICE POLICY

"Satisfy the customer." This has been the service policy of the Buick Motor Company throughout the twenty-seven years of its history. And so faithfully has Buick followed this policy that today the familiar emblem of Authorized Buick Service means prompt, efficient and courteous maintenance to more than 1,500,000 Buick owners. Buick has twice as many owners as any other company selling cars priced above \$1200.

Here are a few of the many important points of Buick's Service Policy: More than 4,000 factory-supervised Service Stations assure all Buick awners the same fine standard of skilled Buick service. A written Warranty, covering the first 4,000 miles or the first 90 days of ownership, whichever shall accrue first, guarantees every new Buick car to be free from defects in material or

Should parts or workmanship prove defective at any time during the Warranty period, Buick dealers will supply the parts and perform the necessary labor free of charge.

In addition to careful pre-delivery tests, the Buick owner receives two major inspections without cost—ane after 500 miles and

another after 1500 miles of driving. These include a thorough road test of all elements of performance. The "Tourist" and "Change of Residence" clauses permit the Butch owner to change his residence as frequently as he desires or

to tour any part of the U.S. or Canada and still receive the full Warranty benefits from the nearest authorized Buick dealer, ALL BUICK dealers fulfill those provisions of BUICKS service policy.

LACK OF DEMAND

APATHY BUT FAIL 8,000 Carryovers Added to 20,000 Received Today Are Burden on Mart

Chicago (P)-Lack of aggressive demand again routed swine prices lower in the face of a moderate increase in supplies in principal market centers. Packers' direct receipts accounted for 5,000 hogs out of the lation for thrise, concentrated in to 210 lb. hags and paid 10-15c lower Cattle trade was in too sensitive

a condition to tolerate any kind of an increase in receipts consequently 10,000 matured cattle all of which were available on the open market did the market no good and enabled buyers to proceed with their plans to force prices down to lower levels. Several of the packers divided 4 .-600 lambs, mostal Californias, which arrived on direct consignment, and more were billed to another packer. Scant supplies of lambs were to be found, but demand was correspondingly reduced and early trading was practically at a standstall.

Track preliminaries will be held Saturday morning, and the semi finals and full finals are to be Saturday afternoon. A departure in scoring is to be taken this year, according to Guy M. Sundt, meet manager. Because of the large entry several sections will be run in the .440 vard dash and the half-mile. Points will be awarded in each section instead of compiling the five winners according to time, he says.

Eleven high schools have entered the state swimming championships to be held Friday night. Kenosha high school is defending champion. Shorewood will defend its tennis titl. Friday and Saturday against an entry list wheih totals 17 schools. Schools entered in the interscholastics are:

Demonstration of West Bend Waterless Cookers

On Thursday, Friday and Saturday this week a representative of the West Bend Aluminum Company will be in the Downstairs Store to show you what delicious foods may be prepared in the Waterless Cooker, with a notable economy of fuel and time. An entire meal may be cooked at once and requires no attention except being set on to cook. And all the foods retain their juices because they are cooked without water. Special prices this week on these cookers.
